* For tough stains, scrubbing provides best results

Deck, Chairs:
Timberline (Solid Color)

Siding: Rustic Cedar (Semi-Transparent)

CHOOSE YOUR LOOK

PRODUCT TYPES ARE DEFINED BY LEVELS OF
PIGMENT/COLOR AND WOOD GRAIN/TEXTURE

SEMI-TRANSPARENT

Semi-transparent stains
conceals imperfections,
while still showing the
natural grain variation and
texture. They add more
color and UV protection
than transparent and
clear stain opacities.

SEMI-TRANSPARENT

Semi-transparent stains
conceals imperfections,
while still showing the
natural grain variation and
texture. They add more
color and UV protection
than transparent and
clear stain opacities.

THE WOOD CARE SPECIALIST®

Founded in 1841 by the Flood family of painters, the FLOOD® brand has earned its reputation as *The Wood Care Specialist* by creating products that protect, preserve and beautify any wood project. We understand the time and effort involved in exterior wood care and the pride and satisfaction felt in a job well done. That's why *Flood* products can be trusted to deliver consistent and quality results, long-lasting performance and peace of mind.

OUR STORY

Under the leadership of Earl D. Flood, the *Flood* Company introduced PENETROL®, a high solids, durable paint oil used as a protective coating for wood and metal or as a paint additive to assure smooth and easy application of oil based paints and varnishes. In 1970, with the growth of pressure-treated lumber, the *Flood* Company, using *Penetrol* additive as a key ingredient, developed a clear finish for pressure-treated lumber, which came to be known as CWF® (Clear Wood Finish). Today, *Penetrol* additive and the CWF product line is still sought after and recognized among professionals and homeowners.

COLOR ACCURACY: Colors shown in this brochure may not be a precise representation of the finished product applied. Colors vary with wood species, color, grain and texture. Color chips shown are subject to the effects of heat, light, age, and other processes, and vary slightly from the actual wood stain. Therefore a trial area is suggested before proceeding with entire job.
FRONT COVER Siding: Tobacco (Semi-Transparent) House Trim: Brick Red (Semi-Transparent) Window Trim: Taupe (Solid Color)
